

Snoop Dogg: " 'Make America Crip Again' is not a statement or political act!?"

Rapper Snoop Dogg has posed with a with a fake corpse appearing to be Donald Trump on his new album cover.

The 45-year-old, who has criticised the US president openly in the past, is pictured standing over the 'body' of a toe-tagged Trump covered by an American flag.

Titled "Make America Crip Again", the EP features a song of the same name in which Snoop rhymes: "The president says he wants to make America great again. F**k that sh*t, we going to make America Crip again."

But the new album is 'not a statement or political act?', Snoop Dogg insisted.
