

Why A Students Work for C Students and Why B Students Work for the Government: Rich Dad's Guide to Financial Education for Parents

I

I am reading Robert Kiyosaki's great book: Why a Students Work for C Students at this moment. Robert share very interesting story about Donald Trump, with his amazing book: Why a Students Work for C Students. I have written two books with Donald Trump. An add benefit of that has been getting to know his three children. They are bright, attractive, respectful, and do not have an entitlement mentality. They have worked for what they have. Both of his sons, Don Jr. and Eric, have said to me

"Our dad would not hesitate to fire us if we did not do our jobs."

One day, Don Jr., Eric and a few of my friends were together on the island of Kauai in Hawaii. Don and Eric were texting their sister Ivanka.

When they were through, I asked them what the Three of them were talking about. Both boys said, "We were sharing recipes." "Recipes" I replied. "You know how to cook? I thought you had servants?"

Both boys laughed and Eric said, "My parents had servants. We didn't. We had to learn to cook and clean. Our parents made it very clear that their wealth was their wealth. We knew from an early age that we were expected to create our own wealth. We know we have had many privileges, but we got very little for free."
